PPG donates \$5,000 to Frontiers of Flight Museum

Donation supports expansion of aviation and space flight education programs

DALLAS, Dec. 10, 2013 – The PPG Industries Foundation announced a \$5,000 donation to the Frontiers of Flight Museum located in Dallas to support aviation and space-flight education programs for Pre-K through 10th-grade students. The grant was made on behalf of PPG Industries' (NYSE:PPG) Dallas-area aerospace application support center in Grand Prairie, Texas.

The Frontiers of Flight Museum is a learning laboratory that uses aviation and space-flight topics to encourage and promote student excellence in STEM (science, technology, engineering and math) subjects. With PPG's donation, the museum will be able to double the number of students served in year-round education classes to 12,000 annually. Additionally, the museum will be able to increase the number of summer Flight School participants from 275 to more than 425.

"Expanding our program is certainly exciting, as we work to engage more students with our STEM-focused educational programs," said Cheryl Sutterfield-Jones, president and CEO, Frontiers of Flight Museum. "Because of PPG, thousands more students will have access to our aviation- and space-flight-focused activities."

The museum's programs are designed to promote student engagement with STEM subjects through activities involving spacecraft design, aerodynamics, model-building, space science and more. The Frontiers of Flight Museum also engages students through "Living Oral History" presentations about aviation luminaries such as Orville Wright, Jimmy Doolittle and Amelia Earhart.

"As a leading global supplier of aerospace products, PPG is pleased to support the Frontiers of Flight Museum as it works to educate students about the science behind aviation," said David Morris, PPG general manager and vice president, Americas, aerospace. "We strongly endorse dynamic STEM-related educational programs that directly impact the communities where our employees work and live."

Established in 1951, the PPG Industries Foundation demonstrates the values of PPG Industries by enhancing the quality of life in communities where the company has a presence. Interests of the foundation, in order of priority, are education, human services, culture and arts, and civic and community affairs. PPG also supports charitable causes by encouraging employees' volunteerism and board service with nonprofit organizations. For more information, visit www.ppgfoundation.com.

About Frontiers of Flight Museum

The Frontiers of Flight Museum, a Smithsonian Institution Affiliate, is a gem in the North Texas community that attracts more than 100,000 visitors annually including 30,000 students. The

museum is a learning laboratory using aviation and space flight to encourage and promote student excellence in science, technology, engineering and math (STEM). Educational classes for all ages are offered throughout the year, designed to excite the imagination in STEM through spacecraft design, aerodynamics, model-building, space science and other disciplines. The museum is located just north of downtown on Lemmon Avenue at the southeast side of Dallas Love Field Airport, north of Mockingbird Lane. Housed in a modern 100,000-square-foot facility, the museum provides a focal point to explore the history and progress of aviation, as mankind continues to pursue going higher, faster and farther. Hours of operation: Monday-Saturday: 10 a.m. to 5 p.m.; Sunday: 1 to 5 p.m. Admission: Adults \$8, Seniors (65+) \$6, Youths/Students (3-17) \$5 and children under 3 are free. For more information, visit www.flightmuseum.com.

PPG: BRINGING INNOVATION TO THE SURFACE.(TM)

PPG Industries' vision is to continue to be the world's leading coatings and specialty products company. Through leadership in innovation, sustainability and color, PPG helps customers in industrial, transportation, consumer products, and construction markets and aftermarkets to enhance more surfaces in more ways than does any other company. Founded in 1883, PPG has global headquarters in Pittsburgh and operates in nearly 70 countries around the world. Sales in 2012 were \$15.2 billion. PPG shares are traded on the New York Stock Exchange (symbol:PPG). For more information, visit www.ppg.com and follow [@PPGIndustries](https://twitter.com/PPGIndustries) on Twitter.

Bringing innovation to the surface is a trademark of PPG Industries Ohio, Inc.
