

WOMEN IN AEROSPACE CARDS

Celebrating Women's History Month, explore different female aviators, astronauts, and everyone in between from the past and share them with a friend by creating tradeable cards on your historical figure!

Materials needed

- Paper (for note-taking)
- Pencil
- Cardstock
- Markers/Crayons
- Either a web-browsing capable device or books at your local library

Directions

1. With parental guidance, explore the web or your public library for different historical female figures in aerospace. Below are some ideas:
 - a. Wang Zhenyi
 - b. Ada Lovelace
 - c. Cecilia Payne-Gaposchkin
 - d. Hedy Lamar
 - e. Katherine Stinson
 - f. Bessie Coleman
 - g. Valentina Tereshkova
 - h. Christine Darden
 - i. Mae Jemison
 - j. Sally Ride
2. Take notes on your chosen person. You will want your card to include the following information:
 - a. Name
 - b. Birthdate
 - c. Major accomplishments
 - d. Picture
3. On the front you can either have a printed picture or, better yet, draw a picture of your historical figure with her name. On the back you will want the birthdate and major accomplishments.
4. Create these with your friends and trade your cards around if you have made more than one!
